

Nitrogen Generators for LC/MS

From Parker Balston

Nitrogen on demand for LC/MS

- Produce a continuous flow of Nitrogen for all LC/MS applications
- Eliminate dangerous Nitrogen cylinders from the laboratory
- Reduce Instrument down time due to the elimination of cylinder changing
- Both internal & external compressor models available
- Low noise operation with no organic vapour exhaust
- Nitrogen generators recommended by all major LC/MS manufacturers

Request a generator quotation and receive a genuine swiss knife

The hazard free alternative to high pressure nitrogen cylinders
