

In order to protect our collaborators, each returned instrument must not present any danger towards its transportation, handling and reparation. It must be decontaminated and declared non-hazardous before expedition. If the returned merchandise does not include this declaration, we reserve the right to proceed with the decontamination and bill you for this service.

DECONTAMINATION CERTIFICATE

To be filled out and included with each equipment returned

Company:		Customer N°:	
Department:		Contact:	
Address:		Telephone:
